

Colourful Semantics - The Rainforest

You can use this pack with children when teaching them about the rainforest. You can talk about who lives there and what grows there. This pack will support children when expressing their thoughts and feelings. You can also use this to help children learn how to use describing words.

You can prompt them by asking questions such as:

'what do they eat?'

'what do you think it feels like?'

'what does it look like?'

'what size is it?'

'what do they like to do?'
