

Colourful Semantics - School Routine

You can use this pack with children when talking about the things you do in school such as lunch time, break time and home time as well as various activities throughout the day such as playtime, playing with the sandpit/water areas etc. You could use this before to talk about what you will do or after to discuss what you did and talk about what you did. You can also use this to talk about describing objects, sequencing events and concepts.

You can prompt them by asking questions such as:

- Where did they go?
- What size is it?
- What happened next?
- What does it look like?
