

Colourful Semantics - Snowman

You can use this pack with children when talking building a snowman. This could be done before and after you have done the activity. This pack will support children when expressing their thoughts and feelings. You can also use this to talk about describing objects, sequencing events and concepts.

You can prompt them by asking questions such as:

- Where did they go?
- What size is it?
- What happened next?
- What does it look like?
