

It is the aim of Integrated Treatment Services to provide an exceptional standard of service to meet the speech and language therapy needs of children and adolescents.

Our highly skilled team of therapists incorporate a multi-functional approach, ensuring that all areas of the clients needs are met.

As well as providing direct therapy, we are highly aware of the need to support parents, staff and settings in which the client operates.

We are proud to offer affordable, sustainable and measurable quality therapy along with the immediate access which our clients are looking for.

We support parents and settings to utilise the statutory services available to them, whilst supplementing these services to provide a complete therapy package to the client.

ITS believes in keeping regular contact with our clients. We provide interactive services within our website and newsletter to update you around our service development. We review national policies, articles and research that may be of interest to you.

Please do visit our website at regular intervals to experience these services.

We look forward to working with you and demonstrating our skills in meeting your therapy requirements.

Sarah Needham
ITS Director of Services

“ITS were able to
easily connect
with my son ”
