

Initial screening form 1 of 2

Child's name _____
Date of birth _____ Age _____
Language spoken _____ Date _____

Parents' description of the problem

What does he do when he stammers?

- Does he repeat whole words, eg, *but but but*?
- Does he repeat parts of words, eg, *b-b-but*?
- Does he stretch out sounds, eg, *mmmmum*?
- Does he get stuck on a sound and nothing comes out?
- Does he do anything else with his face or body when he stammers?
- Does he give up on trying to say it?

Do you think he is aware of it?

Do you think he is worried about it?

On a scale of 0 to 7 where 0 is normal and 7 is very severe, how severe is the stammering?

0 1 2 3 4 5 6 7

When did he start stammering?

Has it changed since then? In what way?

When is it better and when is it worse?

On a scale of 0 to 7, where 0 is not at all worried and 7 is extremely worried, where are you now?

0 1 2 3 4 5 6 7

If he/she is talking to you and stammers, what do you do or say to try and help?

Initial screening form 2 of 2

Family history

Mother

Father

Has either of you ever stammered?

Do you still?

Did any blood relative on either side of the family ever stammer?

Do they still?

Other speech, language, literacy problems

Does your child have any other speech or language difficulties now?

Do you think his language skills are better than those of other children of his age?

Any other issues we should be aware of?
