

# Questions for the SLT to ask in Palin PCI sessions

- 1** What have we/you found out about why your child stammers?  
(When does he stammer more?)  
(What seems to affect his fluency?)
  
- 2** What do you think he needs to do to be more fluent?
  
- 3** What are you already doing to help him to be more fluent?  
(What do you do or say to help him when he is stammering?)
  
- 4** When are you doing that on the video?
