

Singular or Plural ?

Singular or Plural ?

What is this game for?

This game is to help children to remember to put "s" on the end of plural words.

Cut round the 2 lotto boards on the left, and cut out pictures on the right individually.

What to do

2 children have a lotto board each.
The small cards are placed in a pile, face down.
Another child is the caller.

He takes one of the small cards and says what is on it e.g. "*pencils*" "*cups*" "*car*" "*spoons*".
The child who has that picture on their lotto board places the card on the same picture.

How it works - If the caller does not distinguish between words that do or don't have an "s" the others won't know what he means!
